SIDEWALK SUITS AND CLEANER CITY THE CAUSE.

SUE PROPERTY OWNERS

City Engineer Flynt Makes Resignation Immediate—McNeal Will Take Seat Tonight.

The city council will meet tonight in a called meeting to discuss and probably pass several ordinances which are being drawn up by W. H. Crawford, city attorney, leading to the prosecution of property owners for payment of their special sidewalk levies.

An ordinance providing for a cleaner city will also be introduced. Further discussion of the charter of a third class city will probably be made, as several of the councilmen want a charter election to be held before the city election and before a date which would make it impossible to hold a liquor election in February.

Charles McNeal will take his seat in the council as the successor of H. L. Raines from the third ward. The indications now are that no fight will be made on him, although some of the members of the board of aldermen believe that his appointment was not legal.

Mayor Wright has made no appointment of street commissioner to succeed F. L. Flynt, former city engineer, who handed his resignation to Mayor U. S. Wright, to take effect immediately. Mr. Flynt has positions offered him in Hannibal and Kansas City and will probably accept the latter, which is with a firm of consulting engineers.

$5,500,000,000 CROP

GOVERNMENT REPORT SHOWS RECORD OF PRODUCTIONS.

CORN 3 BILLION BUSHELS

Wheat and Oats More Than Billion Each—Barley, Rye, Hay and Rice the Largest Ever.

Special to The Democrat-Forum.

Chicago, Nov. 9.—Five billion, five hundred million dollars is the value of the principal farm products of the United States this year, according to a government report of crops.

This figure exceeds last year's value by a half billion dollars.

Corn production is more than 3,000,000,000 bushels; wheat, more than one billion; oats, one billion and a half.

The barley, rye, sweet potatoes, hay and rice are record crops for the United States in point of production.

The preliminary estimate of corn production is 3,090,509,000 bushels. This is about 65,000,000 bushels more than forecast in the October 1st report and reflects the generally favorable character of the month of October in maturing the crop. The estimate of production is nearly 16 per cent larger than last year's crop, and 14 per cent larger than the average yearly production of the preceding five years. In only one other year has the estimate of corn production exceeded 3,000,000,000 bushels, namely in 1912, when it reached about 35,000,000 more than this year's crop estimate.

More Corn in the South.

The increase in corn production is most marked in the southern or cotton growing states. These eleven states increased their production 35 per cent over the amount they raised last year and 37 per cent over the average yearly production in the preceding five years. They produced about 27 per cent of this year's crop; usually they produce about 22 per cent of the crop. The crop is especially short and of poor quality in the area included in Michigan, Wisconsin, Minnesota, Iowa and North Dakota.

Has Many Friends in This City—Funeral Services This Afternoon.

Mrs. T. J. Dockery, who is known to many in this city, died Sunday night at her home in Kirksville, following a week's illness with bronchial pneumonia.

At the time of Mrs. Dockery's illness Mrs. McCole was summoned from the west. She was critically ill and started home in the care of a trained nurse but failed to reach Kirksville before her mother's death.

WILL OPPOSE KITCHIN

HOUSE FLOOR LEADER OF DEMOCRATS FACES FIGHT.

His Decision to Stand Against Preparedness Program of Administration Cause of Trouble.

2 KITCHIN

Special to The Democrat-Forum.

Washington, Nov. 9.—A fight against Representative Claude Kitchin of North Carolina for the position of majority leader in the next house of representatives was forecasted today.

The objection given to Mr. Kitchin is his stand against a larger military and naval program which he announced to President Wilson yesterday. Mr. Kitchin was selected as head of the Democrats by a caucus held at the close of the last congress after Oscar W. Underwood, former leader, was elected a United States senator from Alabama.

The threatened fight against Mr. Kitchin, ranking member of the house under Speaker Clark, indicates the probable bitterness of the fight in the next congress over the preparedness program of the administration.

There appears to be little chance, however, that Kitchin will be defeated for floor leader of the majority party.

MRS. A. M. HOPPER DEAD.

Funeral Services to Be Held at Residence Tomorrow Afternoon.

Mrs. Emma Cochran Hopper, the wife of A. M. Hopper of West Thompson street, died at 2:30 o'clock this morning, following an illness of several months.

Beside her husband, Mrs. Hopper is survived by two children. They are Mrs. Lois Long, living at home, and C. E. Hopper of Garden City. The son, with his wife and child, has been at his mother's bedside for some time.

Mrs. Hopper was a devoted member of the Methodist church, and when her health would permit was very active in all of its interests. She was a talented writer and many of her compositions were published in the church papers and other publications.

The funeral services will be held at 2:30 o'clock tomorrow afternoon at the home, conducted by the Rev. Gilbert S. Cox, pastor of the First Methodist church.

CROWS AND CACKLES

WILL SOON BE RESOUNDING ON SQUARE AGAIN.

POULTRY SHOW DEC. 1-4

Large Number of Inquiries and Entries Gives Promise of Sixteenth Being Best Exhibition.

Crows and cackles will resound many times across the square in Maryville in just a month, when the sixteenth annual exhibition of the Northwest Missouri Poultry association will be given. The building in which the chicken show is to be held has not been decided upon.

Most of the competition for the prizes is open to the world and the large amount of inquiries and entries which Secretary Joseph H. Sayler is receiving from distant points leads the members of the association to believe that the show will be most successful.

Through an error in compiling the catalogue, which is just out, the prize for the best cockerel in each class was omitted. The prizes are: First, $1; second, 50c; third, a ribbon. A $10 cup, which has not been announced before, will be given to the best pen of Minorcas.

The annual meeting of the association will be held the evening of December 3 in the show rooms. It is open to everyone who is interested in better poultry. No birds can be removed from the show rooms until the exhibit is over at 4 o'clock on the last afternoon.

A few of the cups can be won only by members of the association who are paid up. The cups of the show offered by Maryville merchants total $380 in value. Nodaway and Green townships will have individual contests for cups offered by merchants in Burlington Junction and Quitman.

The boys and girls who obtained eggs free must make a showing of a trio of birds at the coming show. The state association offers $4 for best trio, $2.50 for second and $1 for third best trio in this class. In addition the boys and girls may enter their birds in the general classes and for the township awards.

FIERCE BATTLE FOR R. R.

Continued Silence of Sofia War Office Confirms Report of Anglo-French Success in Southern Servia.

Special to The Democrat-Forum.

London, Nov. 9.—A telegram from Bucharest, Roumania, states that fighting has broken out between the Germans and Bulgarians in northern Servia for the possession of Negotin.

It is reported that 100 Bulgarians were killed. This is the first indication of a break between any of the Teutonic allies.

Germany has begun the shipment of heavy guns, ammunition and other war supplies over the Bagdad railway to Turkey. This line was opened by the fall of Nish, but fierce fighting is going on in a half dozen regions of Servia to keep the line unbroken.

Unofficial Bulgarian claims are that their forces are inflicting heavy losses on the Anglo-French forces, but the silence of the Sofia war office indicates that the allies are gaining ground south of Veles and west of the valley of the Vardar.

The German forces continue their victorious sweep in the north and are now striking against the mountain positions of the Servians west of Nish. Indications are that the German army and its allies now occupy 20,000 out of the 32,000 square miles of Servian territory.

Mutiny in Balkan Army.

Paris, Nov. 9.—A serious mutiny has broken out in the Bulgarian army and outbreaks have occurred in many cities, according to a telegram from Bucharest, Roumania.

Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

NO CAUSE FOR EXCITEMENT.

President Wilson believes in peace as has been abundantly attested in his administration of the delicate problems between this nation and those abroad already inflamed with anger and passion. Mr. Wilson also believes in adequate preparations for the defense of his country as a patriotic country-loving and liberty-loving citizen. With the advice and counsel of his department heads, he will make recommendations to congress covering what he conceives to be desirable. The proposition, whatever it is, will then be subjected to the scrutiny of 435 congressmen and 96 senators direct from the people. With this country at peace with all the world and not immediately threatened by any one, there need be no alarm and no reasonable man need feel any uneasiness as to the outcome. Our navy is a fairly good one but everybody recognizes that our army is the merest sort of a joke, and , in fact, an imposition because of the tremendous cost of its upkeep. The army needs reorganizing, not on a war basis, but on a peace basis.

We do not need or want a large standing army but we do need a trained citizenship that may be called from its peaceful pursuits in times of the nation's peril, one that can be quickly mobilized and outfitted and, when mobilized, becomes immediately an organized effective force The party in power for the twenty years prior to this administration spent millions of dollars on the army and got nothing but a lot of high salaried nabobs bearing shoulder straps and officers commissions.

Most every peaceable citizen locks his home at night that his domicile may not be invaded when he is not awake to danger and that he may rest in peaceful security. The placing of a lock on the door does not necessarily invite burglars and learning how to shoot does not mean that a man must shoulder his gun and go forth to disturb the peace of his fellows.

There is one school of thought that has gone mad over war preparations and there is another that has gone to seed on peace at any price. Neither policy is correct and neither is safe. The one side says that a man armed is more apt to get into trouble. If he be a bully or his brain is inflamed unnaturally, that is true. The other side says that the man who is unarmed is more apt to be attacked by the lawless. That is also true. The bully is a dangerous character armed and allowed to roam at large. The mollycoddle who has no thought but to turn to flight when imposed upon has not in him the making of a great militant and influential nation. If this spirit had prevailed in colonial days, we would still be paying tribute to the British Empire and there would have been no Valley Forge, no Yorktown and no Father of His Country.

There is nothing to get excited about now. The Captain who bravely stood at the helm and safely directed the old ship of state through the threatened storms of some months ago may be trusted now to do nothing that will invite disaster. The president may err in judgment, he does not pretend to be more than human, but he is not dangerous. That has been fully demonstrated.

ANOTHER GAME FOR "PRIVATES."

Stanberry Town Team to Play "Pick-Ups" From Here.

Out at the State Normal school are five young men, members of the team and squad who like basket ball so much that they can't wait for the opening of the regular season. So they are getting some practice and a lot of fun by some pick-up games.

Saturday afternoon they are going down to Stanberry and let a town team down there find out how much basket ball they know. The members of the "private" team are: Scarlett, c; Lyle and Lollis, forwards; Garard and Scott, guards.

MOTHER! YOUR CHILD IS CROSS FEVERISH, FROM CONSTIPATION

If Tongue Is Coated, Breath Bad, Stomach Sour, Clean Liver and Bowels.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company." 10-1-15.

Do The People Want a Fair?

We realize that very few people understand the real conditions under which the Fair has been conducted the last two years. We further realize that a County Fair should be owned and conducted by the people and the stock distributed throughout the county as much as possible. The organization has been indeed very temporary. We have been unable to plan definitely for future exhibitions. And would say, without going into detail (which seems improper here) that without the support of the people of this county whom we feel should have as much interest in this matter as ourselves we care to go no farther without your hearty co-operation and support. We have endeavored to give the public good clean Fairs and Entertainment, and have tried so far (under trying circumstances) to fulfill every promise made. Will you take an interest and be one to assist and have a voice in maintaining the best County Fair in the state? This is not a sympathetic appeal. Our personal interest is no more than yours. We have no ax to grind in the matter. It is a plain business proposition. Shall the Fair be for the people and by the people? It is up to you.

J. A. FORD
J. F. ROELOFSON

Here Is The Proposition To The Public

Whereas the Maryville Nodaway County Fair and Agricultural Association, of Maryville, Mo., a corporation formed for the purpose of operating and conducting a general County Fair, Live Stock and Agricultural exhibition, being duly incorporated under the laws of Missouri, on January 11, 1915, for a term of (20) years, the amount of capital stockis ($25,000.00) divided in (250) shares of par value of ($100.00) each, subject to mortgage of $3,600), which amount of stock is considered (Preferred) stock. For the good and promotion of the above Fair Association the officers propose to sell (108) shares of stock **or more,** which represents the controlling interest of the above corporation. **Said stock to be sold on the following conditions:**

FIRST, the above amount of stock (108) shares to be sold on or before January 11, 1916. **Otherwise this contract to be void.** No stock to be issued by corporation to subscribers until (108) shares of stock has been subscribed for.

SECOND, in case the above amount of stock is subscribed for, on or before January 11, 1916, the officers of the above corporation will notify each subscriber of meeting to be called on or before January 11, 1916, at which time stock subscribed for will be issued and become due and payable, either by cash or bankable note.

THIRD, the terms of office of the present officers of the above corporation expire on January 11, 1916, at which time stockholders will be requested to meet in Maryville, Mo., for the purpose of electing new officers for the corporation. Also officers for the Fair Association and drafting rules and regulations and other business that may come before the association.

Letter to Mr. T. H. Cook, Maryville, Mo.

Dear Sir: Would you like to hear of a 20-year paint?

Mr. James A. O'Niel's house, Henderson, N. C., was painted 20 years ago with Devoe lead-and-zinc, and never painted again till last year; it then looked better than common paint in half that time.

The reason is: Devoe is all paint and true paint; while the common paints are part true and part false. Don't pay to monkey with paint.

And Devoe costs less than any of 'em; not by the gallon, of course, by the house and year. That's how to reckon it. Go by the name

Yours truly,
F. W. DEVOE & CO.,
New York, Chicago and Kansas City.

P. S.—Koch's Pharmacy sells our paint.

We wish to extend to our friends and neighbors our heartfelt thanks for their kindness and sympathy, also the beautiful floral tributes given during the sickness and death of our dear father.—Mr. and Mrs. S. E. Fisher, Mr. and Mrs. G. E. Glaze.

COUNCIL WILL MEET

SIDEWALK SUITS AND CLEANER CITY THE CAUSE.

SUE PROPERTY OWNERS

City Engineer Flynt Makes Resignation Immediate—McNeal Will Take Seat Tonight.

The city council will meet tonight in a called meeting to discuss and probably pass several ordinances which are being drawn up by W. H. Crawford, city attorney, leading to the prosecution of property owners for payment of their special sidewalk levies.

An ordinance providing for a cleaner city will also be introduced. Further discussion of the charter of a third class city will probably be made, as several of the councilmen want a charter election to be held before the city election and before a date which would make it impossible to hold a liquor election in February.

Charles McNeal will take his seat in the council as the successor of H. L. Raines from the third ward. The indications now are that no fight will be made on him, although some of the members of the board of aldermen believe that his appointment was not legal.

Mayor Wright has made no appointment of street commissioner to succeed F. L. Flynt, former city engineer, who handed his resignation to Mayor U. S. Wright, to take effect immediately. Mr. Flynt has positions offered him in Hannibal and Kansas City and will probably accept the latter, which is with a firm of consulting engineers.

$5,500,000,000 CROP

GOVERNMENT REPORT SHOWS RECORD OF PRODUCTIONS.

CORN 3 BILLION BUSHELS

Wheat and Oats More Than Billion Each—Barley, Rye, Hay and Rice the Largest Ever.

Special to The Democrat-Forum.

Chicago, Nov. 9.—Five billion, five hundred million dollars is the value of the principal farm products of the United States this year, according to a government report of crops.

This figure exceeds last year's value by a half billion dollars.

Corn production is more than 3,000,000,000 bushels; wheat, more than one billion; oats, one billion and a half.

The barley, rye, sweet potatoes, hay and rice are record crops for the United States in point of production.

The preliminary estimate of corn production is 3,090,509,000 bushels. This is about 65,000,000 bushels more than forecast in the October 1st report and reflects the generally favorable character of the month of October in maturing the crop. The estimate of production is nearly 16 per cent larger than last year's crop, and 14 per cent larger than the average yearly production of the preceding five years. In only one other year has the estimate of corn production exceeded 3,000,000,000 bushels, namely in 1912, when it reached about 35,000,000 more than this year's crop estimate.

More Corn in the South.

The increase in corn production is most marked in the southern or cotton growing states. These eleven states increased their production 35 per cent over the amount they raised last year and 37 per cent over the average yearly production in the preceding five years. They produced about 27 per cent of this year's crop; usually they produce about 22 per cent of the crop. The crop is especially short and of poor quality in the area included in Michigan, Wisconsin, Minnesota, Iowa and North Dakota.

MRS. T. J. DOCKERY DEAD.

Has Many Friends in This City—Funeral Services This Afternoon.

Mrs. T. J. Dockery, who is known to many in this city, died Sunday night at her home in Kirksville, following a week's illness with bronchial pneumonia.

Mrs. Dockery is the mother of Mrs. George Still, who was in the city at the recent meeting of the district federation of women's clubs and of Mrs. G. M. McCole, formerly a teacher in the Maryville public schools, now living at Great Falls, Mont.

At the time of Mrs. Dockery's illness Mrs. McCole was summoned from the west. She was critically ill and started home in the care of a trained nurse but failed to reach Kirksville before her mother's death.

The funeral services were held at Kirksville this afternoon. Mrs. Dockery was one of the most widely known women in the state and prominent in club and philanthropic work. Besides the children mentioned, Mrs. Dockery is survived by another daughter, Miss Estelle Dockery, living at home.

WILL OPPOSE KITCHIN

HOUSE FLOOR LEADER OF DEMOCRATS FACES FIGHT.

His Decision to Stand Against Preparedness Program of Administration Cause of Trouble.

2 KITCHIN

Special to The Democrat-Forum.

Washington, Nov. 9.—A fight against Representative Claude Kitchin of North Carolina for the position of majority leader in the next house of representatives was forecasted today.

The objection given to Mr. Kitchin is his stand against a larger military and naval program which he announced to President Wilson yesterday. Mr. Kitchin was selected as head of the Democrats by a caucus held at the close of the last congress after Oscar W. Underwood, former leader, was elected a United States senator from Alabama.

The threatened fight against Mr. Kitchin, ranking member of the house under Speaker Clark, indicates the probable bitterness of the fight in the next congress over the preparedness program of the administration.

There appears to be little chance, however, that Kitchin will be defeated for floor leader of the majority party.

MRS. A. M. HOPPER DEAD.

Funeral Services to Be Held at Residence Tomorrow Afternoon.

Mrs. Emma Cochran Hopper, the wife of A. M. Hopper of West Thompson street, died at 2:30 o'clock this morning, following an illness of several months.

The Hopper family moved to Maryville from Garden City, Kan., about three years ago. At that time Mrs. Hopper was in very poor health, and the move was made in the hopes of benefit for her. Beside her husband, Mrs. Hopper is survived by two children. They are Mrs. Lois Long, living at home, and C. E. Hopper of Garden City. The son, with his wife and child, has been at his mother's bedside for some time.

Mrs. Hopper was a devoted member of the Methodist church, and when her health would permit was very active in all of its interests. She was a talented writer and many of her compositions were published in the church papers and other publications.

The funeral services will be held at 2:30 o'clock tomorrow afternoon at the home, conducted by the Rev. Gilbert S. Cox, pastor of the First Methodist church.

CROWS AND CACKLES

WILL SOON BE RESOUNDING ON SQUARE AGAIN.

POULTRY SHOW DEC. 1-4

Large Number of Inquiries and Entries Gives Promise of Sixteenth Being Best Exhibition.

Crows and cackles will resound many times across the square in Maryville in just a month, when the sixteenth annual exhibition of the Northwest Missouri Poultry association will be given. The building in which the chicken show is to be held has not been decided upon.

Most of the competition for the prizes is open to the world and the large amount of inquiries and entries which Secretary Joseph H. Sayler is receiving from distant points leads the members of the association to believe that the show will be most successful.

Through an error in compiling the catalogue, which is just out, the prize for the best cockerel in each class was omitted. The prizes are: First, $1; second, 50c; third, a ribbon. A $10 cup, which has not been announced before, will be given to the best pen of Minorcas.

The annual meeting of the association will be held the evening of December 3 in the show rooms. It is open to everyone who is interested in better poultry. No birds can be removed from the show rooms until the exhibit is over at 4 o'clock on the last afternoon.

A few of the cups can be won only by members of the association who are paid up. The cups of the show offered by Maryville merchants total $380 in value. Nodaway and Green townships will have individual contests for cups offered by merchants in Burlington Junction and Quitman.

The boys and girls who obtained eggs free must make a showing of a trio of birds at the coming show. The state association offers $4 for best trio, $2.50 for second and $1 for third best trio in this class. In addition the boys and girls may enter their birds in the general classes and for the township awards.

TEUTONS WRANGLING

ROUMANIA DISPATCHES SAY GERMANS FOUGHT BULGARIANS.

FIERCE BATTLE FOR R. R.

Continued Silence of Sofia War Office Confirms Report of Anglo-French Success in Southern Servia.

Special to The Democrat-Forum.

London, Nov. 9.—A telegram from Bucharest, Roumania, states that fighting has broken out between the Germans and Bulgarians in northern Servia for the possession of Negotin.

It is reported that 100 Bulgarians were killed. This is the first indication of a break between any of the Teutonic allies.

Germany has begun the shipment of heavy guns, ammunition and other war supplies over the Bagdad railway to Turkey. This line was opened by the fall of Nish, but fierce fighting is going on in a half dozen regions of Servia to keep the line unbroken.

Unofficial Bulgarian claims are that their forces are inflicting heavy losses on the Anglo-French forces, but the silence of the Sofia war office indicates that the allies are gaining ground south of Veles and west of the valley of the Vardar.

The German forces continue their victorious sweep in the north and are now striking against the mountain positions of the Servians west of Nish. Indications are that the German army and its allies now occupy 20,000 out of the 32,000 square miles of Servian territory.

Mutiny in Balkan Army.

Paris, Nov. 9.—A serious mutiny has broken out in the Bulgarian army and outbreaks have occurred in many cities, according to a telegram from Bucharest, Roumania.

Announcement.

NO CAUSE FOR EXCITEMENT.

President Wilson believes in peace as has been abundantly attested in his administration of the delicate problems between this nation and those abroad already inflamed with anger and passion. Mr. Wilson also believes in adequate preparations for the defense of his country as a patriotic country-loving and liberty-loving citizen. With the advice and counsel of his department heads, he will make recommendations to congress covering what he conceives to be desirable. The proposition, whatever it is, will then be subjected to the scrutiny of 435 congressmen and 96 senators direct from the people. With this country at peace with all the world and not immediately threatened by any one, there need be no alarm and no reasonable man need feel any uneasiness as to the outcome. Our navy is a fairly good one but everybody recognizes that our army is the merest sort of a joke, and , in fact, an imposition because of the tremendous cost of its upkeep. The army needs reorganizing, not on a war basis, but on a peace basis.

We do not need or want a large standing army but we do need a trained citizenship that may be called from its peaceful pursuits in times of the nation's peril, one that can be quickly mobilized and outfitted and, when mobilized, becomes immediately an organized effective force The party in power for the twenty years prior to this administration spent millions of dollars on the army and got nothing but a lot of high salaried nabobs bearing shoulder straps and officers commissions.

Most every peaceable citizen locks his home at night that his domicile may not be invaded when he is not awake to danger and that he may rest in peaceful security. The placing of a lock on the door does not necessarily invite burglars and learning how to shoot does not mean that a man must shoulder his gun and go forth to disturb the peace of his fellows.

There is one school of thought that has gone mad over war preparations and there is another that has gone to seed on peace at any price. Neither policy is correct and neither is safe. The one side says that a man armed is more apt to get into trouble. If he be a bully or his brain is inflamed unnaturally, that is true. The other side says that the man who is unarmed is more apt to be attacked by the lawless. That is also true. The bully is a dangerous character armed and allowed to roam at large. The mollycoddle who has no thought but to turn to flight when imposed upon has not in him the making of a great militant and influential nation. If this spirit had prevailed in colonial days, we would still be paying tribute to the British Empire and there would have been no Valley Forge, no Yorktown and no Father of His Country.

There is nothing to get excited about now. The Captain who bravely stood at the helm and safely directed the old ship of state through the threatened storms of some months ago may be trusted now to do nothing that will invite disaster. The president may err in judgment, he does not pretend to be more than human, but he is not dangerous. That has been fully demonstrated.

PICKERING DEFEATS ROSENDALE.

Andrew County Boys Couldn't Withstand Spurt Near Close of Game.

That team from Rosendale high school which came up into Nodaway county thinking that they could take Pickering high school into camp came very near doing so, as they led in the scoring during most of the game.

But the boys under Prof. Albert Harris started a spurt near the close of the game, which the Andrew county team could not withstand and the game ended 37-34 for Pickering. Kysar of Hopkins refereed the game.

The lineups:

Pickering—Byerrum, center; Leech and Moon, forwards; Lett and Hanna, guards.

Rosendale—Couch, center; Cummins and Owens, forwards; Barnes and Messick, guards.

MOTHER! YOUR CHILD IS CROSS FEVERISH, FROM CONSTIPATION

If Tongue Is Coated, Breath Bad, Stomach Sour, Clean Liver and Bowels.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company." 10-1-15.

Do The People Want a Fair?

We realize that very few people understand the real conditions under which the Fair has been conducted the last two years. We further realize that a County Fair should be owned and conducted by the people and the stock distributed throughout the county as much as possible. The organization has been indeed very temporary. We have been unable to plan definitely for future exhibitions. And would say, without going into detail (which seems improper here) that without the support of the people of this county whom we feel should have as much interest in this matter as ourselves we care to go no farther without your hearty co-operation and support. We have endeavored to give the public good clean Fairs and Entertainment, and have tried so far (under trying circumstances) to fulfill every promise made. Will you take an interest and be one to assist and have a voice in maintaining the best County Fair in the state? This is not a sympathetic appeal. Our personal interest is no more than yours. We have no ax to grind in the matter. It is a plain business proposition. Shall the Fair be for the people and by the people? It is up to you.

Letter to Mr. T. H. Cook,
Maryville, Mo.

Dear Sir: Would you like to hear of a 20-year paint?

Mr. James A. O'Niel's house, Henderson, N. C., was painted 20 years ago with Devoe lead-and-zinc, and never painted again till last year; it then looked better than common paint in half that time.

The reason is: Devoe is all paint and true paint; while the common paints are part true and part false. Don't pay to monkey with paint.

And Devoe costs less than any of 'em; not by the gallon, of course; by the house and year. That's how to reckon it. Go by the name

Yours truly,
F. W. DEVOE & CO.,
New York, Chicago and Kansas City.

P. S.—Koch's Pharmacy sells our paint.

Card of Thanks.

We wish to extend to our friends and neighbors our heartfelt thanks for their kindness and sympathy, also the beautiful floral tributes given during the sickness and death of our dear father.—Mr. and Mrs. S. E. Fisher, Mr. and Mrs. G. E. Glaze.
